WHAT IS REGGIO EMILIA?

Established in Italy in 1945

The **Reggio Emilia approach** is a **student-centered** and **self-guided** curriculum that incorpo**rates project-based learning**. Students utilize **loose parts** and **provocations** to express themselves across domains such as **art** and **science**. The curriculum is unique in its flexibility and hands-on nature. Children are encouraged to take the lead, empowering them to shape their own learning experiences.
